

Solar Bird Chase Super Sonic™

Bird Species	All birds
Where to Use	Warehouses, Rooftops, Yards, Open Lots
Bird Pressure	Light to Medium

The Solar Bird Chase Super Sonic™ is a solar powered sound deterrent that plays recorded bird distress and predator calls to deter birds from large open spaces.

- Powered by sustainable solar energy
- Covers up to an acre
- Weather resistant

When birds hear the recorded calls their natural instinct is to flee the area. A solar panel mounted on top of the unit powers the system during the day, while rechargeable batteries keep the unit running at night.

Advantages & Benefits

- Unit powered by sustainable solar energy!
- Deters birds from large open spaces with recorded bird distress and predator calls
- Covers 1-acre
- Water resistant – meant for outdoor use
- Programmable
- 30 day money back guarantee
- Solar panel charges internal battery to keep system operational during cloudy weather

The Solar Bird Chase Super Sonic™ is ideal for use in large open spaces where there is no access to a power source. Solar panels charge and store energy to keep the system operating during intermittent cloudy weather.

Ideal For:

- | | |
|------------------------|------------------|
| Parks | Rooftops |
| Golf courses | Vineyards |
| Athletic fields | Industrial parks |
| Water front properties | Resorts |
